FOR MORE  
INFORMATION

With boys and girls from grades KG1 through to grade 12, the school now has a population of close to 1100 and growing.

Let me begin by introducing myself. My name is Sohil Batarseh and I'm the school's principal. I have been working at Elite Private School for the past 11 years. I have seen the growth and improvement that has taken place throughout those years.

In this new setting, with its large classrooms equipped with modern smart boards, 6 science labs, 3 ICT labs, a huge gym, a semi-Olympic swimming pool, and many other state-of-the-art features, Elite Private School is more able than ever before to achieve its mission of preparing a generation of educated, innovative, globally minded, future leaders.

Our students are attending universities all over the world—in the UAE, UK, USA, Australia, Europe and many Arab countries—undertaking fields of study that range from medicine, dentistry, and business, to political science and many others.

Our fantastic teachers and staff members, involved and cooperating parents, and our great students all work together to make Elite live up to its name and make it an exciting and wonderful place to study.

Thank you for your interest.

# ACCREDITATION

WWW.EPS.AE

FOR MORE  
INFORMATION

Accreditation is very important because through it, families know that the school provides high quality education.

Elite is now accredited by the Accreditation Service for International Schools, Colleges and Universities (ASIC), the American International Accreditation Association of Schools and colleges (AIAA) and AdvancED

The American International Accreditation Association of Schools and Colleges (**AIAA**) is a not-for-profit organization that accredits schools across the globe. It helps schools improving with the belief and understanding that school improvement will result in student improvement. The AIAASC accreditation is especially important to students for a smooth transfer to universities in Jordan, Egypt and USA

**ASIC** is an independent, government approved accreditation body specialising in the accreditation of schools, colleges, universities, training organisations and online and distance education providers, both in the UK and overseas.

They examine the institution as a whole including the administration systems, teaching and delivery of the courses to ensure that the required standards are being met. ASIC accreditation is recognised by the UK Visas & Immigration (UKVI), part of the Home Office, as a qualifying requirement for UK institutions wishing to enroll international students on the Short-term study visa and Standard Visitor visa.

# SPORTS ACADEMY

WWW.EPS.AE  
FOR MORE  
INFORMATION

The enhancement of physical and mental development of children is certainly the most important contribution of sports.

By playing sports children develop physical skills, exercise, make new friends, have fun, learn to be a team member, learn about fair-play, improve self-esteem, etc., but the list of values your child may learn and acquire through sports does not end here.

Taking part in sports is important for children as it reduces stress and enhances their mood. It builds healthy bones and muscles, increases fitness, improves sleep, helps them socialize, improves their cooperation skills, boosts self-confidence and lowers the risk of getting obese.

In partnership with Premier Sports Services, Elite Sports Academy provides a wide range of sportive activities, from Football to swimming, zumba, table-tennis, basketball etc.
